- Git
- Github

WORK EXPERIENCE

Flutter and React Developer

Apexvim

1st June 2025– Present

I have hands-on experience building responsive, user-friendly applications using modern web and mobile technologies. My work spans from crafting clean and accessible interfaces with HTML, CSS, and JavaScript to developing dynamic, component-based web apps using React.js. On the mobile side, I create fast, smooth, and visually appealing cross-platform applications with Flutter and Dart, focusing on performance and intuitive user experience. Throughout my projects, I have collaborated on end-to-end development, solved real-world UI/UX challenges, and delivered scalable solutions with clean, maintainable code.

EDUCATION

Bachelor's in Computer Science

2025 - 2029

Virtual University Of Pakistan

3.65

Intermediate in Computer Science

2023 - 2025

Superior Group of Colleges

1038/1200
